Federico Costanza

# 'arsenale

**NEW DATE!**

## Ensemble L'arsenale

Founded in Treviso by young musicians and composers under the artistic/musical direction of Filippo Perocco, L'arsenale aims to bridge the divide between writing music and making music, between conceiving a sound and the gesture needed to produce that sound, between the lifetime of a sound and the space it lives and dies in. A special feature of the group is its flexibility, easily changing personnel in its keenly attentive explorations of the new work coming from young composers in the vast field of contemporary music.
